

## VARMEELEMENT

CP 061

06100.0-00

CP 061 50W Flat heater 230VAC (el nummer 5450402)  
(EL5450402)

- 50 og 100 W
- Ultra flat, kun 8 mm
- Integrert temperaturskyttelse
- Skrumontering

### PRODUKTBESKRIVELSE

The CP 061 flat heater is designed for a even distribution of heat and temperature in enclosures and electrical cabinets. Due to its ultra-thin construction, the heat element is suitable for applications where there is little or no space for traditional heat elements.

For use as a contact heater the CP 061 offers thermally conductive contact to components or enclosure walls that need to be heated. Alternatively, this flat heater can be used as a convection heater to warm the ambient air within an enclosure.

A specially designed mounting system allows for expansion of the heater body as a result of heating-up during operation. The CP 061 is designed for continuous operation.

### TEKNISKE DATA

|                           |                 |
|---------------------------|-----------------|
| Beskyttelsesklasse        | I (Jordet)      |
| Bredde                    | 100 mm          |
| Driftstemperatur          | -40°C ... +60°C |
| Dybde                     | 8 mm            |
| Fuktighet drift           | < 90% RH        |
| Fuktighet lagring         | <90% RH         |
| Godkjenninger             | CE, RoHS        |
| Godkjenninger (under søk) | VDE             |
| Høyde                     | 239 mm          |
| IP-klasse                 | IP20            |

|                               |                 |
|-------------------------------|-----------------|
| <b>Kabellengde</b>            | 1000 mm         |
| <b>Montering</b>              | Skrufeste       |
| <b>Nominell spenning</b>      | 230 V AC        |
| <b>Oppbevaringstemperatur</b> | -40°C ... +85°C |
| <b>Varmeeffekt</b>            | 50 W            |
| <b>Varmekropp</b>             | Aluminium       |
| <b>Vekt</b>                   | 0,4 kg          |
